

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning at line 5 on page 1 with the following rewritten paragraph:

-- According to the invention, a settable mixture comprises polybutadiene, a flow-enhancing liquid, and ~~substantially~~ dry particulate material, the latter containing no more than 2% water content and being selected to have a maximum of 2% Aluminium Oxide, and ~~no more than~~ a maximum of 1% Ferrous Oxide, the percentages being by weight of particulate material.

--
